

For 85 years, the TRA has protected and advanced the restaurant industry—uniting during the pandemic to achieve some of our greatest accomplishments to date. By investing a small portion of these wins forward, we can build on this legacy, together.

Then

- Passed **6/8 priority bills** at the Texas Capitol last session, making alcohol to-go permanent, shielding federal relief dollars from state taxes, creating pandemic liability and delivery protections, and more.
- Developed the **Texas Restaurant Promise**, creating the industry standard for reopening protocols.
- Drafted and passed the **Paycheck Protection Program Flexibility Act**, and secured \$180 million in hospitality and tourism recovery grants from the State of Texas.
- Established the **TX Restaurant Relief Fund**—distributing over \$3.5 million in grants to independent restaurants.
- Partnered with Adesso to deliver millions of dollars to 500+ members through the **ERTC**.

Now

- Advocating for **pro-growth policies**, stopping burdensome regulations and lowering taxes at the local, state, and federal levels.
- Supporting our workforce through innovative policies and programs on childcare, healthcare, mental health, and **employee wellbeing**.
- Protecting restaurants from rising **swipe fees**.
- Championing ProStart, HOPES grants, immigration reform, and other opportunities to grow our workforce.
- Reducing **supply chain** bottlenecks and costly tariffs.
- Maintaining **strong relationships** with elected officials and regulators.

The TRA PAC pools our industry’s non-corporate funds together to make a bigger impact in state elections. We support candidates of any party, as long as they support restaurant growth. Help us build on our victories by investing in the TRA PAC at www.txrestaurant.org/givenow.
